**1a)** Describe the primary project goals. (*Please limit to three.*)

#### **NEED HELP?**

**1a.** Please provide up to three goal statements drawn from the overall purpose of the project. Primary project goal statements should be broad in scope. **TIP:** Goal statements must have outcomes that can be measured in some way. Abstract goals are difficult to both enact and assess.

**Like this:** To create a dance portrait of the automobile industry reflecting the complexity of human movement and manufacturing.

**1b.** For each goal statement, provide a one-line description of how attainment of the goal should be measured. The outside evaluator will use this criteria in providing feedback to the project administrator. The evaluator may also provide feedback on the appropriateness of the measurement criteria. Your pre-determined criteria are the blueprint for feedback. **TIP:** Choose criteria that will yield the kind of information that could help you get your next grant.

**Like this:** A number of complex ideas, such as humans as masters of nature, will be explored in post-performance discussion. Discussions will be facilitated, observed and recorded.

| <b>b)</b> Explain the criteria you will use to determine how successful your project s been. |

TIP: Try to quantify what you want to happen. Like this: Using previous years' figures, a base of expenses will be calculated and this year's expenditures on advertising, etc., will be measured against the base. Also, coupons will be counted and the restaurant will be asked to keep track of combination packages. Ultimately these latter figures will form a new base for next year's projections.

| in a single statement, then say how you plan to serve them. The target audience(s) may consist of members of a particular demographic group (e.g., children or seniors), residents of a particular region, et cetera. TIP: Your target audience(s) should be implicit in your primary project goals. Outcome statements about service to the target audience(s) are likely to be components of project activities. |   |  |
| <b>Like this:</b> Non-traditional, first-time attending adults connected with the auto industry.   |   |  |
| <b>4b.</b> Describe how it should be determined that the project was successful in serving the target audience(s). <b>TIP:</b> It's not that everyone, as in the example above, is not welcome. They are simply not a "target" audience for this project. (The assessor may also provide feedback about the perceived appropriateness of the target audience(s) for this project.)                                 | <b>4b)</b> Explain how you will determine the success of the project in serving the target audience(s). |  |

| to give as many people as possible the sense of what it is like to create. So being an audience member is probably not a good outcome, e.g., "everyone attended the concert."  |   |
| <b>Like this:</b> The 20 students will be divided into four groups of five, each of which will be issued identical instructions for making a film. They will also be given a camera, videotape and crew structure. Each group will make a fourminute film on a topic to be selected. |   |
| <b>5b.</b> For each strategy describe how you will determine if the participation in the creative process "worked." <b>TIP:</b> This would be a good place to use the "discussion" idea, above.  | <b>5b)</b> Explain how you will determine how well the value of direct participation in the creative process was effectively promoted through this project. |
| <b>Like this:</b> Discussions will be held asking participants what they thought about during each phase of the project.   |   |

| <b>6a.</b> Please provide up to three statements about how your proposal and subsequent implementation will be planned collaboratively with your audience. <b>TIP:</b> It may be that you meet with audience members to find ways to increase access, understand programming needs, etc., before you write your proposal, or that you intend to meet with them before putting final schedules together. You may give them membership on a selection committee, et cetera. | <b>6a)</b> Describe how you will coordinate collaboration between your organization and participating artists, educators, and members of the community served. |  |

| <b>6b.</b> For each statement in <b>7a</b> , describe both how you will decide whether the collaboration has been successful and how the assessor will get the information. The assessor will provide feedback based upon data you provide. <b>TIP:</b> These things need to be observable and verifiable.  | <b>6b)</b> Explain how you will determine whether collaborative planning was appropriate and successful.   |  |
| <b>Like this:</b> Selection committee members will be available to the project assessor to talk about the process. Also, a brief feedback form will be obtained from them at the end of each selection meeting.   |  |  |
